TECHNICAL SKILLS TRAINING ON BASIC ENGINEERING CONCEPTS AND PROJECT MONITORING and CONSTRUCTION SAFETY (INSPECTORS AND IMPLEMENTERS) via Zoom Meeting	The activity aims to strengthen the technical knowledge and practical capabilities of inspectors and project implementers in the effective monitoring and implementation of infrastructure projects.	September 8, 2026	F	LGU	MPMC	8	5	13	The training enhanced the participants' understanding of basic engineering concepts, project monitoring procedures, construction safety, and accessibility considerations. Participants gained practical knowledge that can be applied during project inspection and monitoring activities. The activity also strengthened coordination among the MPMC, technical offices, and civil society representatives in ensuring proper implementation and monitoring of infrastructure projects. Participants actively participated in the discussion and expressed appreciation for the practical and relevant topics presented.
