

## LOCAL PROJECT MONITORING COMMITTEE

---

# Strengthening the Functionality of LPMCs in Region VIII

## *Post-Activity Report*

Date : 28 May 2026  
Venue : Zoom Meeting  
Participants : LPMC Members

### I. Objectives

1. To orient participants on the RPMES Operation Guidelines and relevant DILG issuances.
2. To enhance understanding of the LPMC monitoring and evaluation process flow.
3. To familiarize participants with the LPMC functionality assessment and project management tools.
4. To strengthen knowledge on contract management and construction supervision.

### II. Highlights of the Activity

The activity commenced with an opening program and presentation of the objectives, emphasizing the importance of strengthening the functionality of the Local Project Monitoring Committees (LPMCs) in ensuring effective implementation and monitoring of government-funded projects.

Resource persons discussed the Results-Based Performance Management System (RPMES) Operation Guidelines and relevant DILG issuances, highlighting the roles and responsibilities of LPMC members in project monitoring and evaluation. Participants were also oriented on the standard LPMC monitoring and evaluation process flow, including project identification, monitoring procedures, reporting requirements, and issue resolution mechanisms.

A comprehensive discussion on the LPMC Functionality Assessment Tool and project management tools was conducted to help participants assess committee performance and improve monitoring systems. The session also covered key principles of contract management and construction supervision, focusing on compliance with contract provisions, quality assurance, documentation, and the timely identification of implementation issues.

The activity concluded with an open forum, where participants raised concerns and clarified issues related to project monitoring, documentation, reporting, and practical challenges encountered in the field.

## LOCAL PROJECT MONITORING COMMITTEE

---

### III. Outputs of the Activity

The activity achieved the following outputs:

- Participants gained enhanced knowledge of the RPMES Operation Guidelines and relevant DILG policies governing project monitoring.
- LPMC members improved their understanding of the monitoring and evaluation process, including reporting and documentation requirements.
- Participants were equipped with practical knowledge on the use of the LPMC Functionality Assessment Tool and other project management tools.
- Participants strengthened their competencies in contract management and construction supervision to support effective project implementation.
- Common issues and concerns on project monitoring were discussed and clarified through the open forum, promoting a common understanding among LPMC members.
- Participants committed to applying the knowledge and tools gained to improve the functionality and effectiveness of their respective Local Project Monitoring Committees.
