MUNICIPAL PROJECT MONITORING COMMITTEE

POST ACTIVITY REPORT

Reorientation of Local Project Monitoring Committees (LPMCs)

February 20, 2026

Conducted Virtually via Zoom

DILG Regional Office VIII through the DILG Leyte Provincial Office

I. Background

The Department of the Interior and Local Government (DILG) Regional Office VIII, through the DILG Leyte Provincial Office, conducted a virtual Reorientation of Local Project Monitoring Committees (LPMCs) on February 20, 2026 via Zoom. The activity was participated in by members of the Local Project Monitoring Committees from various Local Government Units (LGUs) in the Province of Leyte.

The activity was undertaken to refresh and strengthen the knowledge, skills, and competencies of LPMC members in the areas of project monitoring, evaluation, and reporting. It also aimed to ensure that LGU-funded and nationally funded projects are implemented efficiently, timely, and in compliance with existing government policies, standards, and guidelines.

II. Objectives

The activity aimed to:

- Reorient LPMC members on their roles and responsibilities in project monitoring and evaluation.
- Enhance participants' understanding of project monitoring tools, processes, and reporting requirements.
- Strengthen the capacity of LPMC members in identifying project implementation issues and recommending appropriate interventions.
- Promote transparency, accountability, and compliance in the implementation of local government projects.
- Ensure timely submission of monitoring reports and proper documentation of project accomplishments.

III. Highlights of the Activity

The virtual reorientation covered discussions on:

- Overview of the Local Project Monitoring Committee and its functions;
- Legal bases and policy guidelines governing project monitoring;
- Monitoring and evaluation processes for locally funded and nationally funded projects;
- Preparation and submission of project monitoring reports;
- Documentation requirements and reporting templates;
- Common issues encountered during project implementation and monitoring; and
- Strategies and best practices to improve project monitoring effectiveness.

The resource persons from DILG provided updates on current policies and emphasized the importance of proactive monitoring to ensure projects are completed according to approved plans, specifications, schedules, and budgets.

Participants were also given the opportunity to raise concerns, clarify issues, and share experiences regarding project monitoring activities in their respective LGUs.

IV. Accomplishments

The activity successfully provided LPMC members with updated knowledge and practical guidance on project monitoring and evaluation. Participants gained a clearer understanding of their responsibilities in ensuring that government projects are implemented effectively and in accordance with applicable laws, rules, and regulations.

The reorientation likewise strengthened coordination among DILG personnel and LGU monitoring teams, fostering a more responsive and accountable monitoring system at the local level.

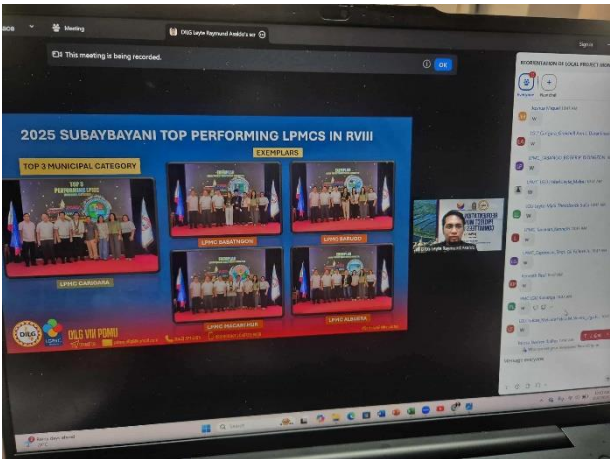

V. Observations and Recommendations

The activity highlighted the need for continuous capacity-building programs for LPMC members to keep them updated on evolving policies and monitoring requirements. It is recommended that similar refresher courses and technical assistance activities be conducted regularly to sustain and further improve the effectiveness of project monitoring mechanisms within LGUs.

VI. Conclusion

The Reorientation of Local Project Monitoring Committees (LPMCs) successfully achieved its objectives of enhancing the competencies of committee members in project monitoring, evaluation, and reporting. Through the guidance provided by DILG Regional Office VIII, participants are now better equipped to perform their monitoring functions and contribute to the efficient, transparent, and compliant implementation of development projects in their respective local government units.
