VENUE:	LEDIPO , 2 nd Floor Municipal Old Building , LGU Compound Poblacion , Lope de Vega Northen Samar
PARTICIPANTS:	ALL LPMC MEMBERS

REPORT SUMMARY

I. OBJECTIVES OF THE ACTIVITY:

To provide LPMC members with basic engineering knowledge relevant to infrastructure project monitoring.

To familiarize participants with common findings on roads, vertical structures, disaster risk reduction infrastructure, and potable water supply systems.

To enhance the capability of non-engineer participants in identifying defects, issues, and non-compliance in infrastructure projects.

To improve monitoring, documentation, and reporting skills of the LPMC members.

To strengthen transparency, accountability, and quality assurance in LGU infrastructure implementation.

II. HIGHLIGHTS OF THE ACTIVITY:

The Skills Enhancement Training for the LPMC “Engineering for Non-Engineers” was successfully conducted at the LEDIPO Office, 2nd Floor Municipal Old Building, LGU Compound, Poblacion, Lope de Vega, Northern Samar. The activity was attended by all members of the Local Project Monitoring Committee (LPMC).

The activity featured technical discussions from invited resource persons who shared practical knowledge and experiences related to infrastructure monitoring.

Session 1: *Local Access Road Common Findings and Recommendations* was discussed by **Rosalie Madrid, PEO II**, focusing on common road defects such as cracks, potholes, drainage problems, and poor workmanship.

Session 2: *Disaster Risk Reduction and Other Infrastructure Common Findings and Recommendations* was presented by **Engr. John Edzel G. Celajes, Engineer II**, highlighting structural issues, compliance concerns, and safety considerations in infrastructure projects.

Session 3: *Potable Water Supply Common Findings and Recommendations* discussed common issues in water supply systems including leakages, inadequate pressure, defective pipelines, and monitoring procedures.

Participants actively engaged in discussions, open forums, and sharing of experiences related to project monitoring and reporting.

III. OUTPUT/S OF THE ACTIVITY:

1. Enhanced knowledge of LPMC members on basic engineering concepts and infrastructure monitoring.
2. Improved understanding of common findings on roads, vertical structures, DRR infrastructure, and potable water supply systems.
3. Increased capability of participants in identifying defects and non-compliance in projects.

POST-ACTIVITY REPORT

4. Strengthened monitoring, documentation, and reporting skills of LPMC members.
5. Improved coordination between technical and non-technical personnel in project monitoring activities.
