## POST-ACTIVITY REPORT

March 25, 2026 | via Zoom

The Department of Interior and Local Government Region 8, through their Project Development and Management Unit, spearheaded the conduct of the Orientation on Strengthening the Functionality of Local Project Monitoring Committees (LPMCs) on March 25, 2026 at 9:00 AM via Zoom, with participants from the Palapag-LPMC gathered at the Liga Hall, People's Center in Palapag, Northern Samar. The activity aimed to enhance the capacity and understanding of local officials and members of the Committee regarding their roles and responsibilities in monitoring the implementation of government projects at the local level. Strengthening the functionality of the LPMCs is essential in ensuring transparency, accountability, and efficiency in the implementation of development programs and projects within the municipality.

During the sessions, participants were introduced to the LPMC monitoring and evaluation process flow, as well as the project management tools, including the Regional Project Monitoring and Evaluation System (RPMES) forms. The discussions also covered contract management and construction supervision, highlighting the importance of technical oversight in ensuring compliance with standards. A significant feature of the orientation was the introduction of the new LPMC Functionality Assessment Monitoring System, a stand-alone website distinct from the usual GDrive system. This centralized and automated platform requires account registration for each LGU's LPMC, ensuring organized and municipality-specific monitoring.

The activity also provided space for active engagement through an open forum, where participants brainstormed and presented recommendations to address various monitoring challenges. This exchange of ideas fostered collaboration and encouraged practical solutions tailored to the local context.

Through these discussions and presentations, participants gained a clearer understanding of the guidelines and mechanisms that support transparency and accountability in government project implementation. With their strengthened capacity, LPMC members are expected to contribute to more effective monitoring and improved delivery of public services and development projects within the municipality.
